Dear Grower

AGROCHEMICALS APPROVED BY THE TOBACCO RESEARCH BOARD: 24 JULY 2018

The agrochemicals approved for use on tobacco by the Tobacco Research Board during the third quarter of 2018 are shown in Table 1. Any agrochemical not appearing in the table is either not currently countenanced by the TRB or has been removed from the list of approved agrochemicals based on the provisions of the new Pesticide Approval Scheme Service which came into effect on 1 July 2011. The list of agrochemicals which TRB no longer approves for use on tobacco and whose approvals will not be renewed are shown in Table 2. Growers should also please note that the application of copper based products in the field is not recommended due to the resultant copper residues in the cured leaf.

If you have any queries regarding the above, or require further information on a particular product, please feel free to contact For more information, contact Kutsaga Research Station's Crop Productivity Services Division on telephone (04) 575 289-94 or toll-free, 0800 4511 or Email: tobres@kutsaga.co.zw or visit Kutsaga Research Station, Airport Ring Road, Harare.

Yours faithfully,

Rhoda Mavuka (Mrs.)
Co-ordinator – TRB Pesticide Approval Scheme Service
